Our Philosophy

Our mission is to serve, guide and support wealthy families to achieve growth across whatever spectrum they choose.

About Us

Coriats has provided strategic counsel to wealthy families and growing businesses since 1978.

Who We Are

Coriats is a regulated and licensed Trust Company operating in the Turks and Caicos Islands.

Founded in 1978, Coriats is committed to providing long term, strategic advice to the families, individuals and corporate clients we serve.

We work with global clients who have diverse structures, ventures and assets in the Turks and Caicos and around the world.

Coriats is part of the Griffiths & Partners Group, one of the largest professional services businesses in the Turks and Caicos Islands. Coriats is independently owned and managed, and has no affiliations to any investment manager or bank.

How We Work

We enjoy what we do, and we cherish the opportunity to work alongside the high-net-worth individuals and corporations we serve. We are passionate about using our experience and expertise to help our clients achieve their ambitions.

We are committed to working closely with our clients and understanding how they operate, what their objectives are, and what we need to do. We look at the big picture and we work with clients on a long term basis, providing stability and strategic counsel over many years. The majority of our clients have worked with us for many decades.

We are a boutique operation, but our strength is also in our reach. Over the past 40 years, we have carefully cultivated professional relationships with investment advisers, international banks, accountants, and law firms worldwide. Through this network, we can make introductions that help our clients to achieve their goals.

What We Do

Coriats offers trustee services, corporate management services and full family office services. We also provide financial and investment administration services.

We have particular expertise in designing investment strategies to achieve specific investment outcomes at clearly agreed levels of risk for our clients. Simultaneously, we ensure and implement a reporting, supervisory and governance regime that enables the family investments and objectives to be achieved. We can help our clients get access to investment opportunities that are not available to most investors.

We also have significant experience acting as trustees/protectors in contentious and/or insolvent trust situations. We can deploy our litigation literacy and strategic dispute experience in multiple jurisdictions, and we can take on trustee and protector roles in most common law countries.

Services

Family Office Services

We provide family office services to several high-net-worth families. We coordinate their financial and professional affairs and provide valued advice and assistance on different aspects of a family's business and corporate ventures, as required.

Asset Services

In our capacity as trustee, Coriats has been responsible for the oversight of diversified investment and property portfolios for over four decades. We have demonstrable experience working with investment managers, global custodians, and independent performance analysts to maximise returns and reduce costs.

Offshore Company Services

We provide the full range of company incorporation and management services, including the provision of Directors, Shareholders and a Registered Office. We help our clients navigate the various steps required to set up and manage business structures.

Our People

First and foremost, we enjoy what we do, and we are passionate about, and committed to, building long term relationships with the clients we work with.
